Now according to the questions above, **rewrite** your sentences to make a short **essay**.

### My favorite sport

The sample of my favorite sport.

My favorite game is football. It is a popularly played sport throughout the world! The best teams from every country make it to the world cup, and people across the globe watch it with interest. I love football because there is a sense of freedom in playing the game. It is physically demanding as we have to run around the field to score a goal and simultaneously defend our side of the goal post. I play football every day in school with my classmates. I also play football with other children in my neighborhood. It is a great way to make friends as you learn to play as a team.

Many of us dream of becoming great footballers someday. I always work on my skills because my coach says we can make it to the state or national level championships if we play well. Football is just as much about strategy and teamwork as it is about physical endurance. We also need great discipline and team cohesion to become a great football team.
